Completed on time			
8 Images uploaded: Back light Side light Front light Soft light Hard light Morning light Mid-day light Dusk light	No, I never did the work or I have the photos but I never uploaded them.	Some are uploaded but I did not complete the assignment.	I experimented with all the light options and uploaded 8 photographs.
All images tack sharp	No, I did not use a tripod or I did not focus correctly. My images are blurry.	Some but not all photographs are sharp.	Every shot is tack sharp because my camera was steady and I knew how to focus my camera.
Use of GIMP tools	No, I didn't use photo editing software at all.	I got lucky and some of my photos turned out well.	I made corrections as needed and they enhanced my work.
