

TEx – Trades Exploration

From the TEx classroom to the Job Site

Featuring students from our Claremont TEx Program:

**One of the aspects of the program includes
Construction Electrical**

The focus of the program is the Carpentry component

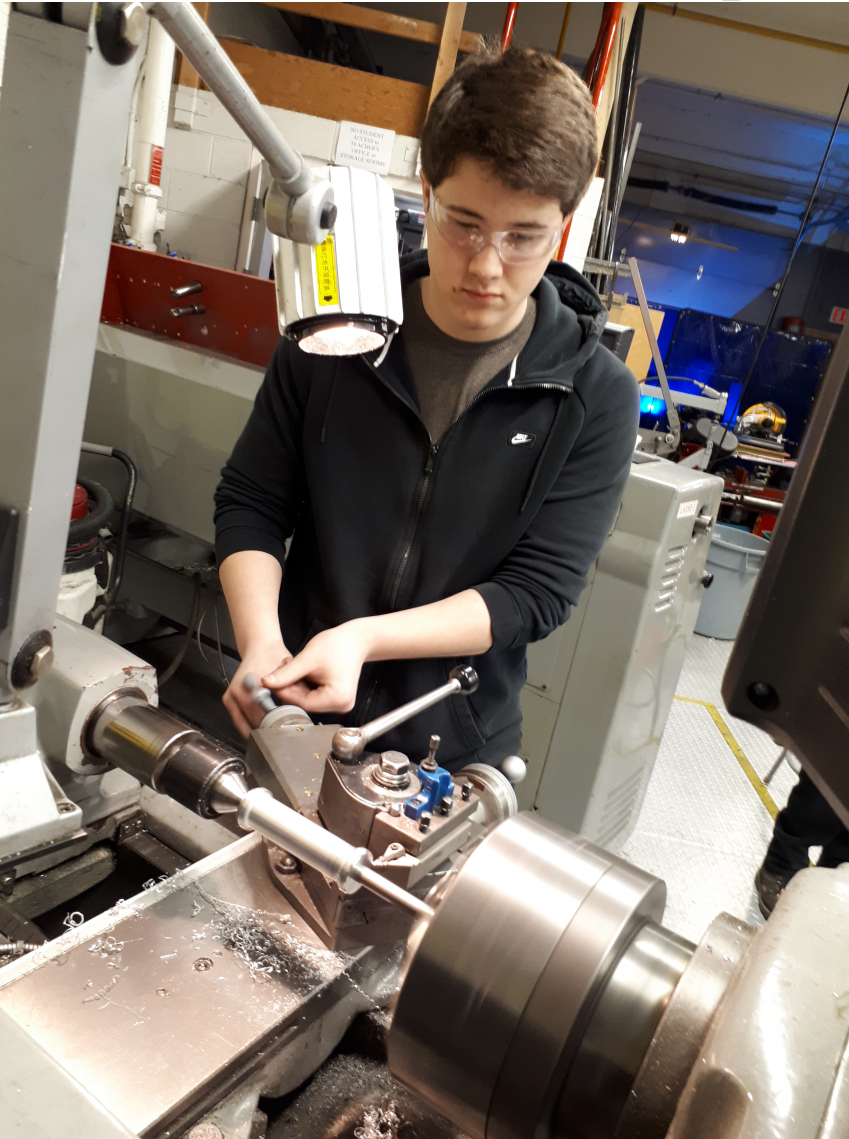

Plumbing is also a part of the construction project that students are involved in.

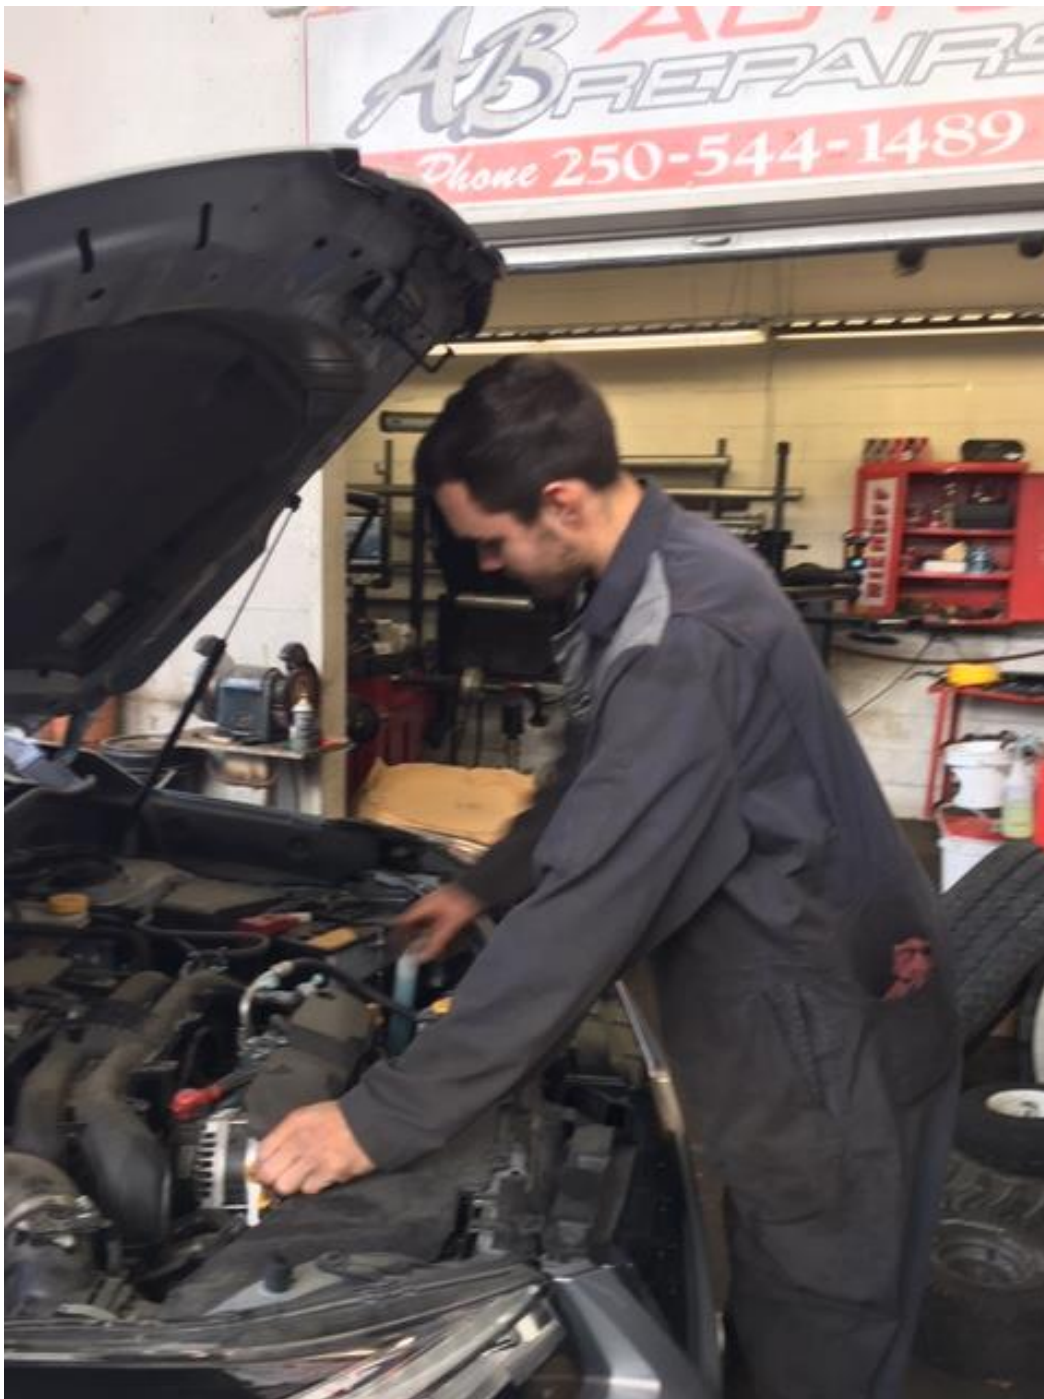

Machining and Welding, although not related to construction, are also part of the TEx Program

After completing the TEx Program many of our students have moved on to apprenticeships in the trades:

Dean works at *OK Tire* as a mechanic. He is finishing his 2nd Year Apprenticeship

**Max is with *Foreman CNC Machining Ltd.*
He works with a variety of complex
machinery:**

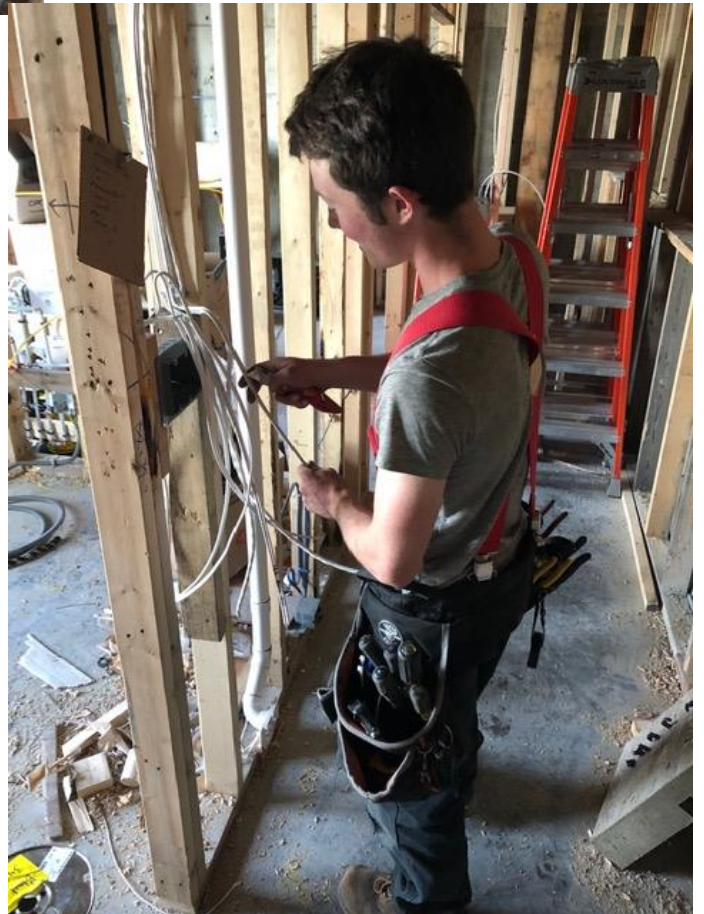

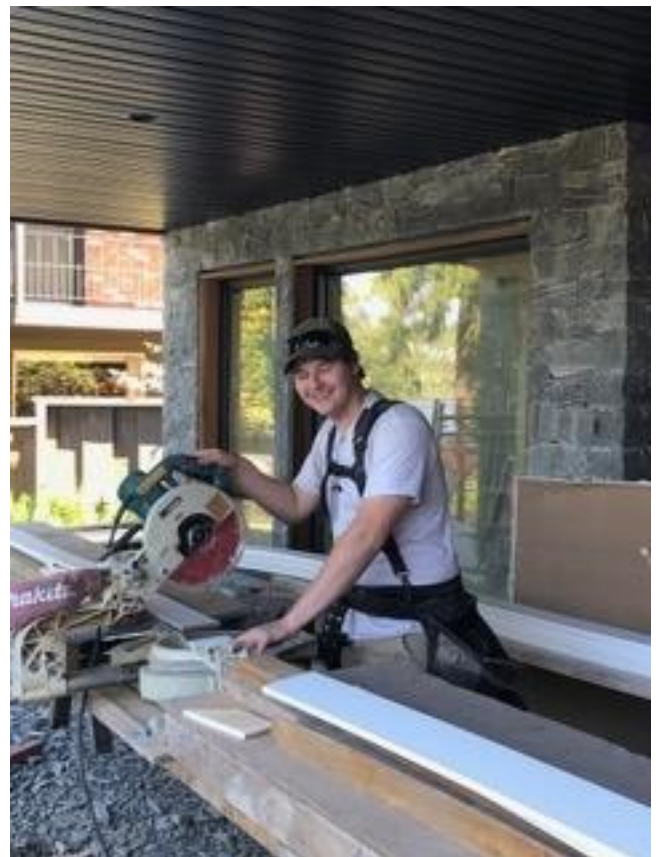

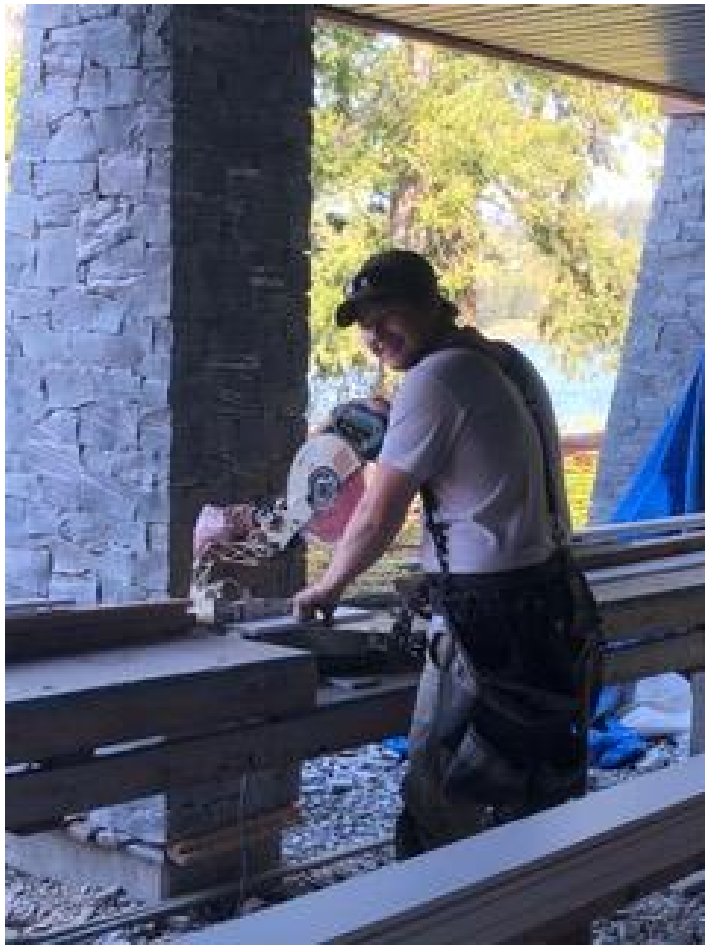

Brett is an apprentice electrician with *Black Box Electrical Company*:

**Daniel is an apprentice Carpenter with
Prevost Built.**

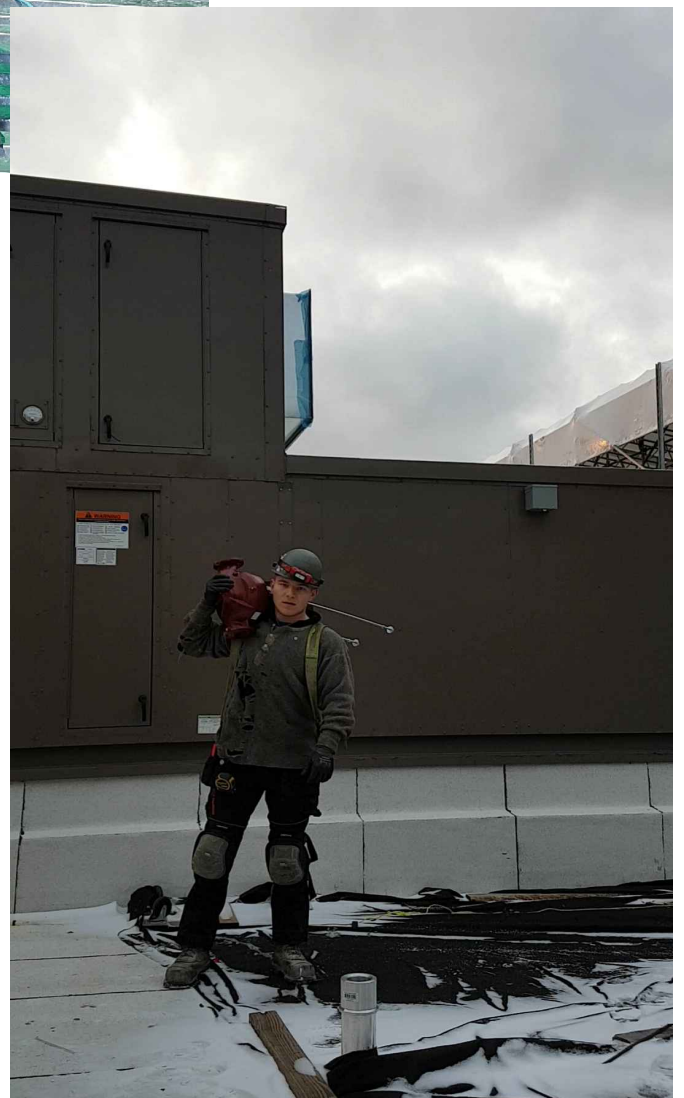

Mitch is an apprentice Heavy Duty Mechanic with Island Asphalt & Paving

Connor is an apprentice plumber with Erb Technical Contracting...

**If you know of or if you are a
past Claremont TEx Program student
who is working in the trades now,
please send Mr. Arsenault a photo and
comment to :**

**250 415 1175 or email
garsenault@saanichschools.ca**
