

Claremont

Secondary school

A tradition of excellence

February 2014

Dear Parents or Guardians,

The Claremont Secondary School Physical Education Department is offering a number of exciting optional opportunities in their senior physical education courses again this school year. These activities do come with a cost to families in order for students to fully participate. However, we strongly believe that these activities are of high value to students and recommend that as many students as possible participate. The Sr. classes incur costs associated with weekly field trips, guest presenters and off campus activities. Depending on the course, these costs may include busing, gas, entry and facility fees, hiring guest presenters/instructors, certification, etc. In order to fully immerse your son/daughter in the Sr. Physical Education curriculum and make these opportunities possible we are requesting the following amounts from each student:

Community Recreation 11	\$110
Community Recreation 12	\$110
Outdoor Pursuits	\$110
Strength & Conditioning 11/12	\$35
Women's Recreational Pursuits	\$85

We make every effort to reduce the cost to students and thank you for your understanding. A waiver is available for hardship, as per district policy. Please have your son/daughter bring the appropriate amount to the accounts office, located near the library. Please make cheques payable to School District 63 and in the memo field write your student's name and course.

Sincerely,

Claremont PE Department
