

## **RETHINK THINKING: Summit at the Bay**

**November 18-19 at Royal Bay Secondary School**

This is an experience you've never had before. Summit At The Bay 2.0 brings together you, your friends, and people you're meeting for the first time for a two-day energy bender of collaborating on passions and ideas. We do it this way on purpose — and it's going to rock your world. Your takeaway? Freedom of thinking. Shared ideas. Supercharged connections. And a boatload of good feelings. Between 13 and 19 years old? This party's for you.

### **The Speakers:**

Founders **Kori Chilibeck & Matt Moreau** share their story of how the Earth Group began in a university apartment and has since exploded into a global social enterprise. Their gig? Making sure kids around the planet have food, water and education. Big giving. Big good. Providing over a million school meals to children globally, these two guys are determined to be at the forefront of solving world hunger.

**Kevin Breel** is a 23-year-old writer, comedian and activist for mental health. His TED talk, "Confessions of a Depressed Comic", logged more than a million views in just a few weeks, earning cred as one of the most viral videos of all time.

### **Saturday Night Fun**

Amp your energy with a delicious and nutritious buffet dinner on Saturday night. With a menu designed by students of the Royal Bay Secondary Culinary Program, this "superfeast" is all about youth feeding youth. Of course there will be gluten-free, dairy-free and vegan options, are you kidding? This is the time to fuel up for the evening's entertainment. Cause man, you're gonna need it.

### **Saturday Night Entertainment**

Low battery? Charge it up by joining, spectating, or just chilling on a sofa. We've got all kinds of different lounge areas to suit your groove. Dozens of performers and interactive activities create a full-on nighttime festival. Expect improv theatre, interactive digital lighting, DJ live music, magic shows and spoken word poetry. Truth.
