# **MARCH 3 - MAY 3 SAT PREPARATION COURSE**

## **SAT Preparation Course- For the May 5th, 2018 Exam**

Test taking, just like driving or horseback riding, is a skill. Like any skill, it can be improved with practice and high-quality feedback to address areas of improvement. Using practice tests to set benchmarks and track progress, you will receive guided lessons in test-taking strategies, with skill-specific instruction and test feedback designed to help you maximize your test results. Instruction will be based on Kahn Academy tools, in addition to supplementary resource materials. Tuition fees include one baseline test and two full-length practice tests, daily practice, weekly progress reports, 25 hours of instruction, and private tutoring sessions with the instructor.

**FREE Info Session: Tue.  
Feb. 27. 7-8pm**
